

EMPOWERING TEACHERS

Teachers are the torch bearers of the nation. Not only they disseminate the secular bread earning knowledge and text book facts, but in fact they touch, move and inspire the whole society and nation by the indelible imprints of thoughts, actions, and abilities which they demonstrate through their personality.

Nowadays teachers face a multitude of challenges in their professional lives; not only with the day-to-day need to motivate and inspire learners but also with diverse priorities and the heterogeneity of learners in the classroom. Our efforts are geared to empower, motivate and develop teachers and provide them a learning path so as to continue their professional development.

Dimensions Education empowers the teachers in an interactive classroom environment through workshops, seminars and web conferencing. Our programs allow the teachers to spend their classroom time more effectively in motivating the students; engaging the young minds in the application of acquired knowledge.

Our offerings:

Teachers Empowerment Seminars / Workshops

Inspiring and motivating the students

Being Aggressive Vs. being Assertive

Being at the helm Vs. sinking in the whirlpool

Causing and leading Group Dynamics

Effective Teaching Techniques
